**2322 - How ASU Hopes to Solve the National Transfer Problem: A Model for Success**

Partnerships and Collaboration, Credits and Degree Pathways

This session will introduce a large R1 university in the southwest's approach to solving the national transfer problem, as transfer students often lose academic credits, time and money when working to complete their associate and bachelor's degrees due to a lack of transfer resources. We will share insights into how our university is partnering with community colleges across the nation to ensure transfer student success with our state-of-the-art, home-grown transfer tools.

Conclusion
Academic Alliances

A unit of the Office of the University Provost, Academic Alliances work across the institution and with its partners to help position Arizona State University as a leader in building healthy ecosystems for transfer students. Through student-centric technology solutions and collaborative and innovative alliances, our model expands access to student success and provides an end-to-end connected experience to enable academic preparedness, college completion and career readiness.

We prioritize students, lifelong learners, and meaningful connections by meeting individuals wherever they are in their learning experience and provide a supportive platform to help navigate seamless college journey’s.

**Expansion**
Support ASU in becoming a top three transfer destination of choice.

**Integration**
Leverage and integrate ASU transfer tools to support student success. Collaborate to assist our partners in addressing their own institutional needs.

**Learner Connection**
Academic Alliances will identify new opportunities and partners internally and externally to expand access to education across the Universal Learning spectrum.

Developing Solutions at Scale
Framing the National Transfer Problem

Only one-in-six starting community college earn a bachelor’s degree within 6 years

- 100 new students
- 80 pursue transfer
- 29 transfer
- 16 students graduate

Primary best practice: promote clearly mapped paths to transfer into major of interest.

- Students who complete their associate degree prior to transfer are 6-7x more likely to get their bachelor’s degree
- Students who can transfer 90% of their credits are 2.5x more likely to get their bachelor’s degree, compared to those who can transfer fewer credits

ASU’s Approach through Transfer Focused Collaboration:

- Expand partnerships through Universal Articulation Model
- Integration with partners on technological tools and resources like MyPath2ASU™
- Enhancing how we collaboratively support learners prior to transfer
Creating integrated processes that facilitate partnership solutions for student success outcomes at no cost.

Service and Solution Awareness

Graduation rates
Choose from 400+ online or immersion pathways. Students can personalize a degree path that's suited for their interests and career endeavors. By leveraging data and technology, we'll build informative campaigns to make it easier for students to navigate the college environment and provide access to insightful information on average earnings by major.

Academic Alignment Support

Term-to-term persistence
Academic Alliances and Academic Transfer Credit Solutions will guide course by course sequencing and program development processes. Delivering scalable pathways for academic departments so students can clearly plan their path into an ASU bachelor's degree on day one of their college journey.

Seamless Transfer Experience

Transfer outcomes
Through leveraging technology and curriculum ASU has developed a robust infrastructure that provides student-friendly self-help tools. Transfer Guide includes almost a million course equivalencies from U.S. accredited institutions to assist students in knowing what they need to take at their current transfer institution for their ASU degree.
Objective
Increase awareness, engagement, and operationalization of MyPath2ASU™ through partnership to enable students a self-service model to over 400+ ASU pathways (immersion and online).

- Accelerate student time to Bachelor’s Completion
- Cut down the cost of students education
- Ensure maximized credit transfer for applicability into major of interest

Partner with all domestic community colleges

We provide access to MyPath2ASU™ partnership and engagement opportunities through webinar demonstrations and one-on-one partnership discussions

We aim to cultivate a network and culture of inclusivity and not exclusivity

ASU’s Transfer Priority
Steps for Transfer Student Success

- Leadership Support
- Application of ASU’s Charter “ASU is a comprehensive public research university, measured not by whom it excludes, but by whom it includes and how they succeed”
- Recognition of a nation-wide issue, and the need to partner with community colleges, regardless of non-existent Arizona legislation on articulation between community colleges and universities, as other states have
- Recognition of the need at ASU for community college credit applicability to ASU majors, as 48% of the ASU population are transfer students
- Ability to build the technology, with supportive partners like the Maricopa Community College District, ASU’s largest transfer population
- Creation of an integrated and continually engaging plan with community college partners
