

# CURRICULUM ALIGNMENT

SINCE 2006

Among the DirectConnect to UCF partner colleges and the University of Central Florida (UCF), the goals of Curriculum Alignment are:

- To synchronize core content and the competencies gained by students taking courses that are transferable within the partner colleges and UCF.
- To increase the propensity of state college students completing lower-level courses required for their anticipated major.
- To ensure that the competencies gained by students taking these courses are sufficient for successful progression to a requisite/next level course at any institution, with the ultimate goal of a UCF bachelor's degree.

As in everything, the primary objective is improving student success.
